(a) rich in biodiversity or harbours endangered and threatened marine species; or

(b) a critical habitat for a variety of marine resources.

(2) A marine conservation area established under subsection (1) shall be managed by the relevant county government under an approved management plan prepared through a consultative process with the relevant lead agencies and communities.

(3) Notwithstanding the provisions of subsection (2), a marine conservation area shall adopt a system of zoning that caters for multiple use of marine resources for any or all of the following:

(a) extraction or no extraction zones in respect of marine resources;

(b) protection of nesting, breeding and foraging areas;

(c) no take areas in respect of fisheries; and

(d) any other purposes with respect to specified human activities within the zone.

(4) The Cabinet Secretary shall, on recommendation of the relevant county government, by notice in the Gazette, issue appropriate rules and regulations for effective management of marine conservation areas.

37. (1) A notice under this section which proposes to-

Variation of boundaries or revocation of a national reserve.

(a) vary the boundaries of a national reserve; or

(b) declare that a wildlife conservation area shall cease to be a national reserve; or

(c) change of status from national reserve,

shall only be published by the Cabinet Secretary where a proposal is recommended by the relevant county government after consultation with the National Land Commission and the Service in accordance with subsection (2) of this section and is subsequently approved by resolution of Parliament.

(2) The relevant county government, the National Land Commission and the Service shall not recommend any such proposal unless—

(a) they are satisfied that such variation of boundary or cessation of national reserve proposed by the notice shall not—

(i) endanger any rare, threatened or endangered species,

(ii) interfere with the migration and critical habitat of the wildlife;

(iii) adversely affect its value in provision of environmental goods and services, and

(iv) prejudice biodiversity conservation, cultural site protection, or its use for educational, ecotourism, recreational, health and research purposes;

(b) the proposal has been subjected to an environmental impact assessment in accordance with the provisions of the Environmental Management and Coordination Act, 1999; and

- (c) public consultation in accordance with the Fourth Schedule has been undertaken in relation to the proposal.

38. (1) Subject to subsection (2) of this section, the Cabinet Secretary may, on recommendation of the Service after consultation with the National Land Commission, and with the approval of the National Assembly, exchange part of a national park with private land with the consent of the owner of such land where -

Exchange of part of a national park.

- (a) the exchange enhances efficient wildlife conservation and management;
- (b) the exchange is equitable to conservation and the land owner, according to an independent valuation;
- (c) an environmental impact assessment has been conducted in accordance with the provisions of the Environmental Management and Coordination Act, 1999, and has shown that such exchange shall not adversely affect wildlife conservation and the environment in general; and
- (d) the part of the national park to be exchanged does not contain rare, threatened or endangered species and is not a water catchment area, wetland or a source of springs.

No.8 of 1999

(2) The Service, in consultation with the National Land Commission and the Cabinet Secretary, may acquire by purchase any land suitable to be declared a national park, wildlife corridor, migratory route or dispersal area under this Act.

(3) No purchase shall be transacted under this section unless prior public consultation is carried out in accordance with this section.

39. Any person or community who own land on which wildlife inhabits may individually or collectively establish a wildlife conservancy or sanctuary in accordance with the provisions of this Act.

Establishment of conservancy or sanctuary.

Community
wildlife
associations and
wildlife
managers.

40. (1) Communities, landowners, groups of landowners and existing representative organizations may establish a community wildlife association and register under the appropriate law or in the case of an individual owner, may be registered as a recognized wildlife manager by the County Wildlife Conservation and Compensation Committee.

(2) The object and purpose for which an association is established is to facilitate conflict resolution and cooperative management of wildlife within a specified geographic region or sub-region.

(3) The application for registration referred to in sub-section (1) shall be in the prescribed form and shall contain –

- (a) a list of the wildlife conservancy , sanctuary or other wildlife conservation activities in which they are involved in and in the case of an association their membership;
- (b) for associations, the constitution with clear governance structures;
- (c) a draft plan for the association or privately owned wildlife conservation area detailing-
 - (i) type of wildlife resources in their area and type of wildlife conservation initiatives being undertaken;
 - (ii) measures and type of wildlife conservation activities that are being proposed;
 - (iii) type of wildlife user rights being proposed that will enhance conservation and survival of wildlife in their area;
 - (iv) land use practices in the area and proposed measures to ensure land use compatibility with wildlife

conservation;

- (v) methods of monitoring wildlife and wildlife user activities;
- (vi) community wildlife scouting scheme that will help to provide wildlife surveillance and assist in addressing problem animal control; and
- (vii) any other aspect deemed necessary; and

(d) such other information as the Director General may require.

(4) The Service shall keep an up to date record of all approved associations, wildlife managers and wildlife user activities that the associations and managers are involved in.

41. An association or wildlife manager approved by the Cabinet Secretary on the recommendation of the service in consultation with the county wildlife conservation committees shall:

Functions of community wildlife associations and wildlife managers.

- (a) ensure that the association membership or the wildlife manager protects, conserves and manages wildlife conservancies and sanctuaries under their jurisdictions pursuant to their respective approved management plans;
- (b) assist the service in combating illegal activities, including poaching and bush meat trade;-
- (c) keep the regional wildlife conservation area committee informed of any development changes and occurrences within their area that may adversely affect wildlife;
- (d) assist in problem animal control through community wildlife scouts drawn from among their membership or employees; and

- (e) do any other act that is necessary to enhance community participation in wildlife protection, conservation and management.

Donations and bequests.

42. (1) Any person who is registered as a proprietor of land in accordance with the provisions of any written law may donate or bequeath all or part of that land to the national government, county government, community, an educational institution or an association for purposes of wildlife conservation.

(2) The wildlife conservation area established on the land so donated or bequeathed shall be gazetted in accordance with this Act as a national park, national reserve, conservancy or sanctuary.

(3) The land so donated or bequeathed shall not be used for any purpose other than the establishment of a wildlife conservation area as originally desired by the previous owner.

Standards of management.

43. (1) Where the County Wildlife Conservation and Compensation Committee is concerned that the management of a wildlife conservancy or sanctuary is below the standard expected from the management plan or there is a request for assistance from the registered user, the County Wildlife Conservation and Compensation Committee shall work with the registered users with regard to discussing and monitoring the management situation and making suitable recommendations which may include -

- (a) action to be undertaken by the registered user
- (c) action to be undertaken by the registered user in conjunction with the Service;
- (c) action to be undertaken by the Service on behalf of the registered user;
- (d) deregistration of user rights, and, where applicable de-gazettement.

(2) Where action is taken by the Service under subsection 1(b) or (c), any reasonable expenses incurred by the Service may be deducted from any profits accruing

to the wildlife conservancy or sanctuary.

44. (1) Every national park, marine protected area, wildlife conservancy and sanctuary shall be managed in accordance with a management plan that complies with the requirements prescribed by the Fifth Schedule.

Management
plans.

(2) In preparing and adopting a management plan, the Service shall consult with the county wildlife conservation committee. In the case of protected areas, the formulation and implementation of management plans shall involve the participation of neighbouring communities.

(3) The Cabinet Secretary shall, by notice in the Gazette, publish the approved management plans in respect of national parks, marine protected areas, wildlife conservancies and sanctuaries;

(4) No development will be approved in the absence of management plans approved in subsection (3).

(5) The Cabinet Secretary shall, initiate public consultation for purposes formulating managing plan guidelines.

45. (1) No person shall mine or quarry in a national park without the approval and consent of the Service.

Consent
mining
and
quarrying.

(2) The Service, shall only approve and give consent for mining or quarrying where—

(a) the area does not contain endangered or threatened species;

(b) the area is not a critical habitat and ecosystem for wildlife;

(c) the area is not an important catchment area or source of springs;

(d) an environmental impact assessment has been carried out in accordance with the provisions of the Environmental Management and Coordination Act, 1999;

(e) approval has been obtained from the in

accordance with the applicable law regulating mining;

- (f) the miner has undertaken through execution of a bond the value of which will be determined by the Service , to rehabilitate the site upon completion of his operation to a level prescribed by the Service and the Mining Act:

Provided that the Cabinet Secretary may, on the recommendation of the Service, and after consultation with the Cabinet Secretary responsible for mining, by notice in the Gazette, publish rules to regulate and govern mining operations in such protected areas;

- (g) the carrying on of mining or quarrying operations shall not contravene any rules made under this Act.

(3) Subject to subsection (2), mining or quarrying may be carried out in a national park and reserve under the authority issued by the Service.

(4) The provisions of this section with respect to mining and quarrying shall apply *mutatis mutandis* with respect to wildlife conservancy and sanctuary.

(5) No person shall undertake oil or gas exploration and extraction without the consent of the Cabinet Secretary, and with the prior approval of the National Assembly.

Protection of
endangered
threatened
ecosystems.

46. (1) The Cabinet Secretary may, on the advice of the Service and in consultation with the National Land Commission, by notice in the Gazette, publish a national list of wildlife ecosystems and habitats that are endangered and threatened and are in need of protection.

(2) A list published under subsection (1) shall describe in sufficient detail the location of each ecosystem on the list, the threats and the measures being taken to restore and maintain its ecological integrity for enhanced wildlife conservation through development and implementation of a management plan.

(3) The Cabinet Secretary shall, upon the recommendation of the Service, every five years review any national list published under subsection (1) of this section.

47. (1) The species of wildlife set out in the Sixth Schedule are declared to be critically endangered, vulnerable, nearly threatened and protected species.

Endangered and
threatened species.

(2) The Service shall amend the Sixth Schedule from time to time as necessary.

48. (1) A person may not carry out any activity involving a specimen of a listed species without a permit from the Service.

Restricted
activities
involving
listed
species.

(2) The Cabinet Secretary may, on recommendation of the Service, by notice in the Gazette, prohibit the carrying out of any activity:-

- (a) which is of a nature that may negatively impact on the survival of a listed species; or
- (b) which is specified in the notice or prohibit the carrying out of such activity without a permit issued by the Service.

49. (1) The Service may develop and implement recovery plans for the conservation and management of all the species listed under the Seventh Schedule.

Species recovery
plans.

(2) The Service shall, in developing the recovery plans, to the maximum extent practicable:-

- (a) give priority to those rare, endangered and threatened species; and
- (b) incorporate in each recovery plan-
 - (i) a description of such site-specific management actions as may be necessary to achieve the plan's goal for the conservation and survival of the species;
 - (ii) objective, measurable criteria which, when met, would result in the species being

removed from the list; and

- (iii) estimates of the time required and the cost to carry out those measures needed to achieve the goal of the plan.

(3) The Service may, in developing and implementing recovery plans, enlist the services of appropriate public, private or non-governmental organizations and institutions and other qualified persons:

(4) The Cabinet Secretary shall report biannually to the National Assembly through the National Wildlife Conservation Status Report on the status of efforts to develop and implement recovery plans for all nationally listed species and on the status of all species for which such plans have been developed.

(5) The Service shall implement a system, in cooperation with the county wildlife conservation committees, community wildlife associations and wildlife managers, to monitor effectively for not less than five years the status of all species which have recovered to the point at which the measures provided pursuant to this section are no longer necessary and which, in accordance with the provisions of this section, have been removed from the lists published in the Sixth Schedule.

PART VII—ESTABLISHMENT OF THE WILDLIFE RESEARCH AND TRAINING INSTITUTE

Establishment
of the Wildlife
Research and
Training
Institute.

50. (1) There is established an institute to be known as the Wildlife Research and Training Institute (hereinafter referred to as “the Institute”).

(2) The Institute is a body corporate with perpetual succession, and a common seal and shall in its corporate name, be capable of—

- (a) suing and being sued;
- (b) taking, purchasing and disposing of movable and immovable property;

51. The object and purposes of the Institute shall be to undertake and co-ordinate wildlife research and training in accordance with the provisions of this Act.

Object and purpose of the Institute.

52. (1) The Institute shall—

Functions of the Institute.

- (a) collect and analyze wildlife data and information, to support planning and decision making by different stakeholders, relating to—
 - (i) inventory and status of wildlife resources countrywide;
 - (ii) trends in wildlife conservation and management approaches and practices;
 - (iii) processes or activities likely to impact on sustainable wildlife conservation and management; and
 - (iv) wildlife statistics;
- (b) undertake research through remote sensing and geographic information system to enhance wildlife conservation and management;
- (c) undertake wildlife disease surveillance and control;
- (d) determine, in consultation with the Service and the relevant lead agencies, the carrying capacities of the various wildlife conservation

- areas and their conservation needs and priorities;
- (e) assess information, that is the basis of ecosystem-based management plans for all wildlife conservation areas;
 - (f) undertake wildlife research and related emerging areas;
 - (g) provide training and capacity development programmes, courses in wildlife conservation and management and related disciplines and award diplomas and certificates;
 - (h) establish with approval of the Cabinet Secretary, such campuses or centres for training and capacity development as are necessary and in the furtherance of wildlife research and training;
 - (i) enter into association with other institutions of learning, within or outside Kenya, as the Institute may consider necessary or appropriate and in furtherance of wildlife research and training;
 - (j) give information on early warning, disaster management, impacts and mitigation and adaptive strategies to climate change in wildlife conservation areas;
 - (k) organize symposia, conferences, workshops and other meetings to promote the exchange of views on issues relating to wildlife research and training; and
 - (l) perform any other functions that are ancillary to the object and purpose for which the Institute is established.

(2) Admission to the Institute of candidates for diplomas and other awards of the Institute shall be open to all persons accepted as qualified for such admission without distinction on the basis of ethnic origin, gender or creed being imposed on any person as a condition of his or her becoming or continuing to be a student at the Institute.

53. (1) There shall be the Board of the Institute which shall consist of—

Board of the
Institute.

- (a) a chairperson appointed by the President;
- (b) the Principal Secretary of the ministry for the time being responsible for matters relating to wildlife or his or her representative;
- (c) the Principal Secretary of the ministry for the time being responsible for matters relating finance or his or her representative;
- (d) the Principal Secretary of the ministry for the time being responsible for matters relating to science and technology or his or her representative;
- (e) the Director of the Institute, who shall be the secretary; and
- (f) seven other members, not being public officers, nominated or selected through a competitive process taking into account regional balance and gender parity and appointed by the Cabinet Secretary, of whom —
 - (i) one shall represent the national umbrella wildlife association;

(3) The Cabinet Secretary shall, at least once every five years, submit to the National Assembly a wildlife resources monitoring report showing the achievement made in the implementation of the past or subsisting national wildlife conservation and management strategy and avail the said wildlife resources monitoring report to the public.

PART VIII—CONSERVATION ORDERS, EASEMENTS AND INCENTIVES

Wildlife Conservation Orders and Easements

65. (1) Wildlife conservation easements may be created by voluntary private arrangement or upon appropriate application to the Environment and Land Court.

Conservation orders and easements.

(2) A party may enter into an agreement with a land owner for a wildlife conservation easement to be created

on that person's land, subject to that agreement being legally recognized.

(3) A court may grant a wildlife conservation order or easement subject to the provisions of this Act;

(4) Without prejudice to the generality of subsection (1), a wildlife conservation order or easement may be created so as to—

- (a) further the principles of sustainable wildlife conservation and management;
- (b) preserve flora and fauna;
- (c) create or maintain migration corridors and dispersal areas for wildlife
- (d) preserve the quality and flow of water in a dam, lake, river or aquifer;
- (e) preserve any outstanding geological, physiographical, ecological, archaeological, cultural or historical features;
- (f) preserve scenic views, topographical features and landscapes;
- (g) prevent or restrict the scope of any mining or mineral or aggregate workings that would adversely affect wildlife conservation;
- (h) prevent or restrict the scope of agricultural or other land use activities that would adversely affect wildlife conservation; and
- (i) prevent or restrict the scope of infrastructural activities that would adversely affect wildlife conservation.

(3) A wildlife conservation order or easement shall be attached to the land in perpetuity or for a term of years or for an equivalent interest under customary law as agreed to by the parties to a private agreement or as determined by the court.

(4) An order or easement may exist in gross; that is to say, the validity and enforceability of the order or easement shall not be dependent on the existence on a plot of land in the vicinity of the burdened land which can be benefited or, of a person with an interest in that

plot of land who can be benefitted by the order or easement.

66. (1) A person or a group of persons may make an application to the court for the grant of one or more wildlife conservation orders or easements

Application for

(2) Proceedings to enforce an easement may request the court to:

- (a) grant a wildlife conservation order
- (b) grant any remedy available under the law relating to easements in respect of land.

(3) The court shall have discretion to adapt and adjust, so far as seems necessary to it, the law and procedures relating to the enforcement of the requirements of an order or easement.

68. (1) Where an order or easement is created on land the title of which is registered under a particular system of land registration, the easement shall be registered in accordance with the provisions of the Act applicable to that particular system of registration

Registration of
wildlife
conservation
orders and
easements.

(2) Where an order or easement is created on any land other than land referred to in subsection (1), the County Wildlife Conservation and Compensation Committee of the area in which that land is situated shall register the order or easement in a register maintained for that purpose.

(3) In addition to any matter which may be required by any law relating to the registration of orders and easements in respect of land, the registration of a wildlife conservation easement shall include the name of the applicant for the easement or beneficiary of the easement as the person in whose name the easement is registered.

Compensation
for wildlife
conservation
orders and
easements.

69. (1) Parties to a voluntary easement may negotiate appropriate compensation for any loss or diminishment of value of land due to the creation of the easement.

(2) where a wildlife conservation order or easement is imposed by the court on land on which any person has, at the time of creating the order or easement, any existing right or interest in the land and that such order or easement will restrict the right or interest, there shall be paid to that person, by the applicant for the order or easement such compensation as may be determined in accordance with this section.

(3) Any person who has a legal interest in the land which is the subject of an order or easement imposed by the court, shall be entitled to compensation commensurate with the lost value of the use of the land.

(4) A person described in subsection (3) may apply to the court that granted the order or easement for compensation stating the nature of the legal interest in the burdened land and the compensation sought.

(5) The court may require the applicant for the order or easement to bear the cost of compensating the person described in subsection (3)

(6) The court may, if satisfied that the order or easement sought is of national importance, order that the Government compensates the person described in subsection (3).

Incentives and
benefit sharing.

70. (1) Every person has the right to practice wildlife conservation and management as a form of gainful land use.

(2) The right specified in subsection (1) shall require the party to invest resources for that practice.

(3) The party shall ensure that the wildlife is maintained in a healthy, natural, and secure state:

Provided that this practice shall be carried out where the land is suitable for such practice, subject to the terms and conditions of the licence issued by the Cabinet Secretary.

71. (1) Every person has the right to reasonable access to wildlife resources and shall be entitled to enjoy the benefits accruing there-from without undue hindrance.

Right to
reasonable access.

(2) The right set out in subsection (1) shall be exercised with due regard to the rights and privileges of other stakeholders.

72. (1) Utilisation and exploitation of wildlife resources by any person whether individual land owner or in a conservation area, and wherever else shall be practised in a manner that is sustainable and in accordance with regulations made under this Act.

Sustainable
utilization and
exploitation.

(2) The manner, form, nature and style of the practice under subsection (1) shall be in conformity with the provisions of the relevant laws, including land use management and planning.

73. The Cabinet Secretary, in consultation with the land owner, the National Land Commission, the Commission on Revenue Allocation and in liaison with the Service shall, formulate regulations and guidelines on access and benefit sharing.

Cabinet Secretary
may make
regulations.

74. (1) Land owners shall facilitate the ease of movement of wildlife from one area to the other considering their migratory nature that attaches to the resource.

Migration of
wildlife.

(2) Any benefits accrued as a result of subsection (1) may be shared among relevant parties on a case by case basis, whether county, conservancy or individual land owner.

(3) The parties under subsection (2) may enter into agreements for the purpose of benefit sharing and related transactions.

(4) The agreements reached under subsection (3) shall within twenty-one days be filed and registered with the Cabinet Secretary which will consider granting approval for the same.

Mutual co-
existence

75. (1) In furtherance of the spirit mutual co-existence in the framework of human – wildlife conflict, every decision and determination on the matter of conservation and management of the wildlife resource shall not be exercised in a manner prejudicial to the rights and privileges of communities living adjacent to conservation and protected areas:

Provided that in the parties shall have due regard for the provisions of the appropriate and enabling laws, including laws on devolution and land management.

Guidelines on
incentives and
benefit-sharing.

76. (1) The Cabinet Secretary shall, upon advice by the Service, in consultation with the Commission on Revenue Allocation, formulate guidelines regarding incentives and benefit sharing, and the nature and manner in which the same shall be distributed.

(2) The Cabinet Secretary shall publish in the Gazette within twenty-one days of the formulation rules and regulations to govern the regime on incentives and benefits.

(3) The guidelines under this section shall be subjected to public scrutiny at every stage of their formulation within the framework of the laws on devolution and land management.

(4) The guidelines on benefit sharing shall comply with the minimum conditions that a minimum of five per cent of the benefits from national parks shall be allocated to local communities neighbouring a park.

(5) Subject to Article 66 of the Constitution, private investments in conservancies shall benefit local communities and investors shall provide such benefits by applying various options including infrastructure, education and social amenities.

PART IX—HUMAN-WILDLIFE CONFLICT

Problem animals.

77. (1) Any authorised officer of the Service may, with the consent of the owner or occupier in respect of private land, where it is necessary for the purpose, go onto any land to destroy any animal which has been deemed a problem animal:

Provided that where the animal is a dangerous animal, which has been previously wounded or otherwise injured so as to make it a potential source of danger to human life, the officer may follow such animal with the intention of killing it on any land notwithstanding that the prior consent of the owner or occupier of the land has not been obtained. The Service shall under such circumstances provide the owner or occupier a subsequent report of what occurred.

(2) Notwithstanding anything to the contrary in this Act, the owner or occupier of land, or any agent of such owner or occupier may, subject to the provisions of this Act, destroy any animal which has been deemed a problem animal:

Provided that nothing in this section shall authorize the killing of a problem animal in a protected area, or the use of any poison, pitfall or snare for the killing of any such animal.

(3) Any person who kills an animal in the circumstances set out in subsection (1) shall, as soon as possible, and in any case not later than forty-eight hours after the event, report the circumstances of such killing and deliver the trophies of such animal, to the nearest wildlife office or police station.

78. (1) Notwithstanding anything in this Act, it shall not be unlawful for any person to kill or wound any wild animal in the defense of himself or any other person if immediately and absolutely necessary.

FIFTH SCHEDULE

(s.44)

MANAGEMENT PLANS**PART I—GENERAL**

- (1) A management plan is the instrument in which all the ingredients for active management are described, in particular which organizations will undertake what responsibilities and what actions are intended to achieve what ends. However, despite being a primary tool, management plans often go unused because of a failure to see management plans as a dynamic working document requiring annual updates and because of a tendency to be over elaborate.
- (2) The level of planning should be tailored to the capacities of the agencies and communities involved. Management planning should be a practical tool – one that can be created in simple form and built upon over time, using progress reports.
- (3) A management plan process includes the production of an annual compliance report and a 5 year third-party management report.

PART 2 – PLANNING FRAMEWORK

- (1) The following are information that should be included as a minimum:
 - a legal description of the area covered (whether national, provincial, local or some other designation). A legal description may include or officially recognize customary land boundaries and/or natural boundaries (e.g. rivers, river basins, mountain ranges, etc.);
 - a brief statement of the wildlife management goals and objectives;
 - the time period for which the plan is valid;
 - the species covered by the plan;
 - a description of habitat types, amounts, and plant composition (where possible);
 - A description of the activities being undertaken;
 - A report detailing the participation of neighbouring communities in the preparation of the plan;
 - A description of the anticipated benefits and beneficiaries
- (2) As the complexity of the protected area increases in terms of size,

habitats, species, proposed activities, then the following incremental information should be included for non-consumptive utilization:

- the provision of zones and the management objectives for each zone;
- the identification of tourist carrying capacities;
- the quality targets to be met in terms of price and volume;
- the provision of tourist management regulations;
- the provisions for the management of habitats and species (particularly important in 'closed' ecosystems);
- the management of migratory species;
- the identification of key breeding areas;
- the management of potential conflict with neighbouring communities;
- the scale and location of any infrastructural development;
- the monitoring to be undertaken and its frequency;
- any relevant historical information.

(3) And for consumptive utilization, the following information should be additionally included:

- data on historical wildlife culling, cropping, hunting, where such information is available;
- an approved method for determining sustainable off take levels; and
- proof of compliance with the Eleventh Schedule and any other legal requirement set out in this Act.

EIGHTH SCHEDULE

(s.80(3))

LICENSING**PART I—CONSUMPTIVE WILDLIFE UTILISATION****General**

(1) In considering the license application for consumptive wildlife utilization, the Service shall have regard to the material considerations which include:

- (a) an integrated land use plan of the area;
- (b) the need to protect fragile environmental resources, ecosystems and habitats;
- (c) an environmental impact assessment licence issued under the Environmental Management and Coordination Act, No. 8 of 1999; and
- (d) a recommendation from the Service and the county wildlife conservation area committee whose area of jurisdiction falls wholly or partially within the region.

(2) After considering an application made under this section and all matters appearing relevant thereto, the Service may grant to the applicant the licence or variation applied for or may refuse such grant, and may attach to any licence so granted such conditions as the Service may deem expedient.

(3) Every licence shall expire on the 31st December of the year in respect of which it is issued or on the date specified in the licence.

Live Sale

(4) The Cabinet Secretary may, on recommendation of the Service after consultation with the Service, grant sale of live animals in game farming operations: Provided that such sale of live animals shall be done under the supervision of the Service and in consultation with the respective county wildlife conservation area committee.

Cropping

(5) Subject to the rules and regulations made under this section, the Cabinet Secretary may, on recommendation of the Service after consultation with the Service, grant cropping to be undertaken in game farming and ranching operations where applicable: Provided that cropping shall not be done in contravention of the provisions of this Act or be in conflict with the long term goal of wildlife conservation and management.

Culling

(6) The Cabinet Secretary may, on recommendation of the Service, authorize culling of wildlife in a wildlife conservation area as a management tool: Provided that such culling shall be done by or under the supervision of the Service **as a last resort after such other management tools such as translocation has been explored.**

Maintaining records

(7) The Service shall keep record of wildlife trophies from the cropping and culling operations to mitigate against poaching and illegal trade in wildlife trophies.

Processing trophies

(8) The Service may, on recommendation of the Service, authorize local processing and sale of wildlife trophies from the cropping activities under the supervision of the Service.

Donating wildlife

(9) The Cabinet Secretary may, on recommendation of the Service and approval by resolution of the National Assembly, donate wildlife as a gift to another state for non-commercial purposes.

Sport Hunting

(10) Sport hunting is prohibited and any person engaging in sport hunting or any other recreational hunting will be committing an offence and shall be liable on conviction to a fine or to imprisonment or to both such fine and imprisonment.

Subsistence Hunting

(11) Hunting for the purposes of subsistence or facilitating the trade in wildlife products, particularly the bushmeat trade, is prohibited and any person engaging in such activity will be committing an offence and is liable on conviction to a fine or to imprisonment for a term or to both such fine and imprisonment.

PART 2 – DEALING IN TROPHIES

- (1) A trophy dealer's license may be issued in respect of certain classes of trophy only, as may be endorsed on the license, and the holder thereof shall not deal in trophies other than those so endorsed.
- (2) A trophy dealer's licence shall not be transferable, and no person other than the person to whom it is issued shall make use of such licence

- (3) A trophy dealer's license shall be valid for one year from the date at which it is issued, provided that the Service may forthwith cancel the license of any trophy dealer convicted of an offence under this Act

PART 3 – PRESCRIPTION

- (1) The Cabinet Secretary may, on recommendation of the Service after consultation with the Service, by notice in the Gazette, prescribe standards, guidelines and rules as are necessary and appropriate to carry out the purposes of this schedule.
